## Historique

2000

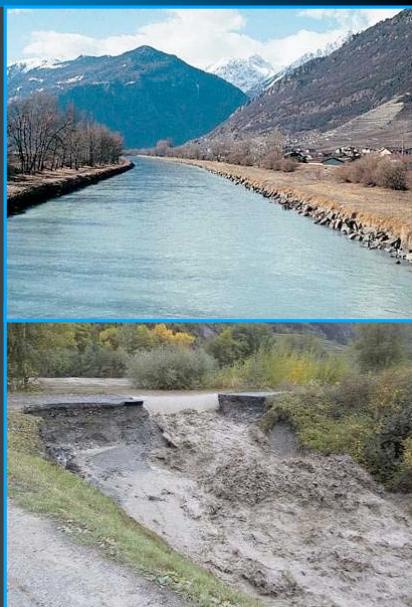

ch-agram

### Historique

**1990 : Evaluation des risques**  
140 km<sup>2</sup> inondables  
CHF 10 milliards de dégâts potentiels

**2000 : Crue (temps de retour 100 ans)**  
ruptures de digues  
10 km<sup>2</sup> inondés  
CHF 300 millions de dégâts

### 3<sup>ème</sup> correction du Rhône

## 3ème correction du Rhône

Prise en compte des enjeux et participation à trois niveaux

- 1. Au niveau de toute la plaine**  
Plan sectoriel Rhône  
Scénarios pour une agriculture valaisanne durable  
Groupe d'accompagnement agricole  
Concept directeur de réseau écologique cantonal
- 2. Au niveau régional**  
Concept de développement de la plaine  
Groupes de travail
- 3. Au niveau local**  
**Améliorations foncières intégrales**  
Projets urbains  
Interventions ponctuelles

## Principes de R3

MIX & REMIX

ch-agram

## Au niveau régional

**C Concept**

- Esquisse de carte au 50'000
- Tourisme et loisir
- Développement communes
- Réseau écologique
- Scénario agricoles

ch-agram

## Concept régional de développement de la plaine

ch-agram

## Au niveau local

**Amélioration foncière intégrale lorsque:**

- Besoin et volonté agricole
- Importante emprise R3
- Opportunité pour plusieurs projets simultanés
- Mise en œuvre du concept de développement régional

**AFI =** intégration en douceur du projet R3,  
mesures de compensation pour l'agriculture,  
recherche de synergies

ch-agram

## Au niveau local

**Amélioration foncière intégrale :**

**ETUDE DE FAISABILITE**

**AVANT-PROJET**

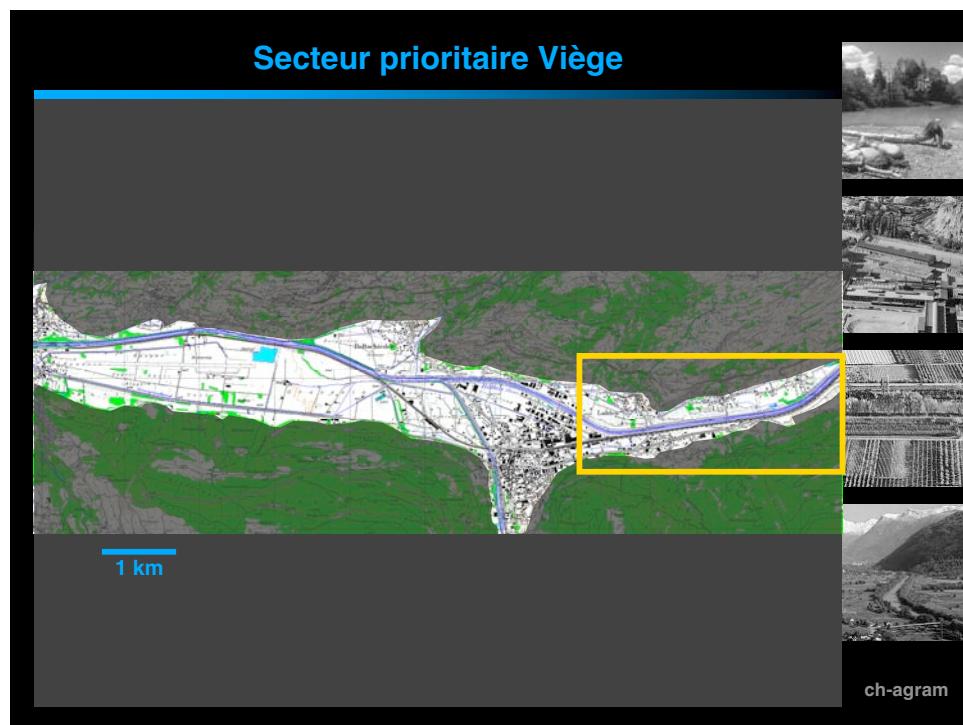

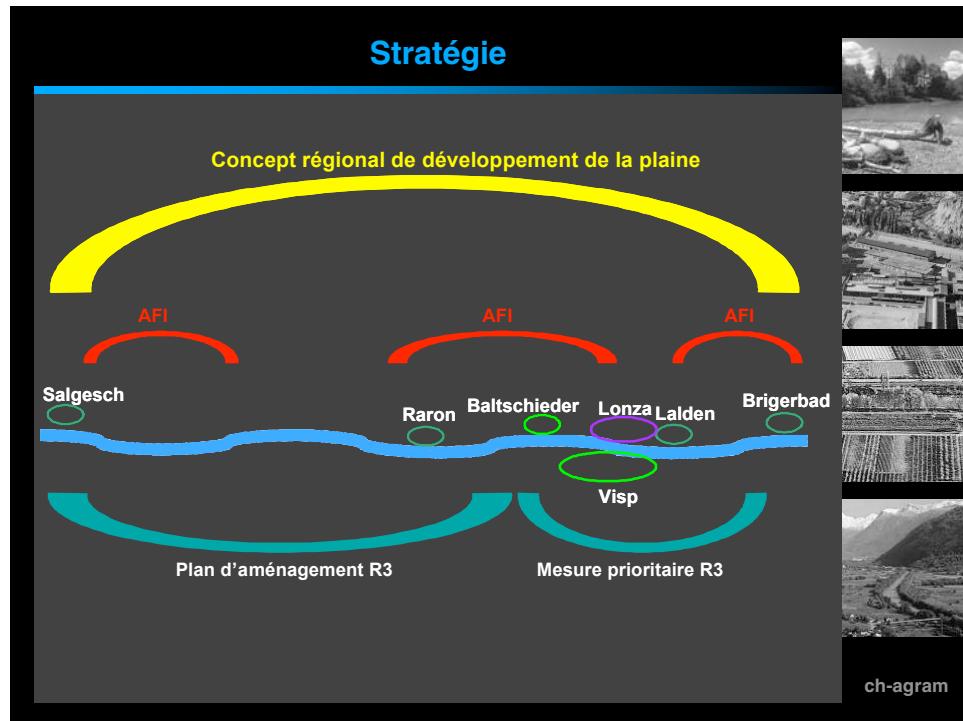

- Diagnostic
- Objectifs et priorités
- Concept général et périmètre
- Concepts sectoriels et mesures
- Analyse d'utilité
- Répartition des coûts

**MISE EN CONSULTATION PUBLIQUE**

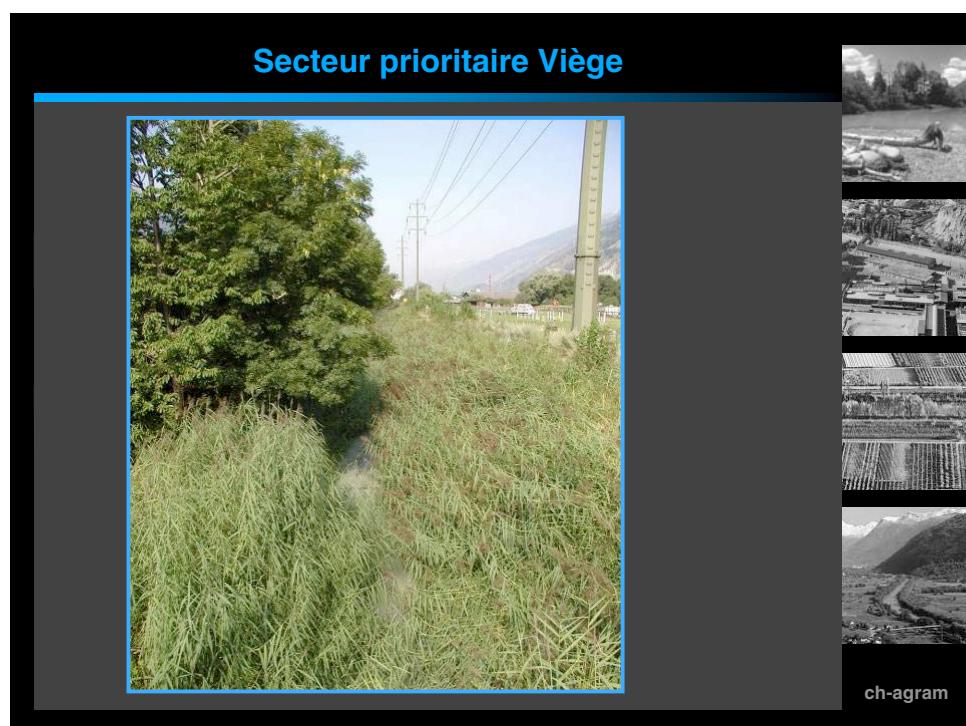

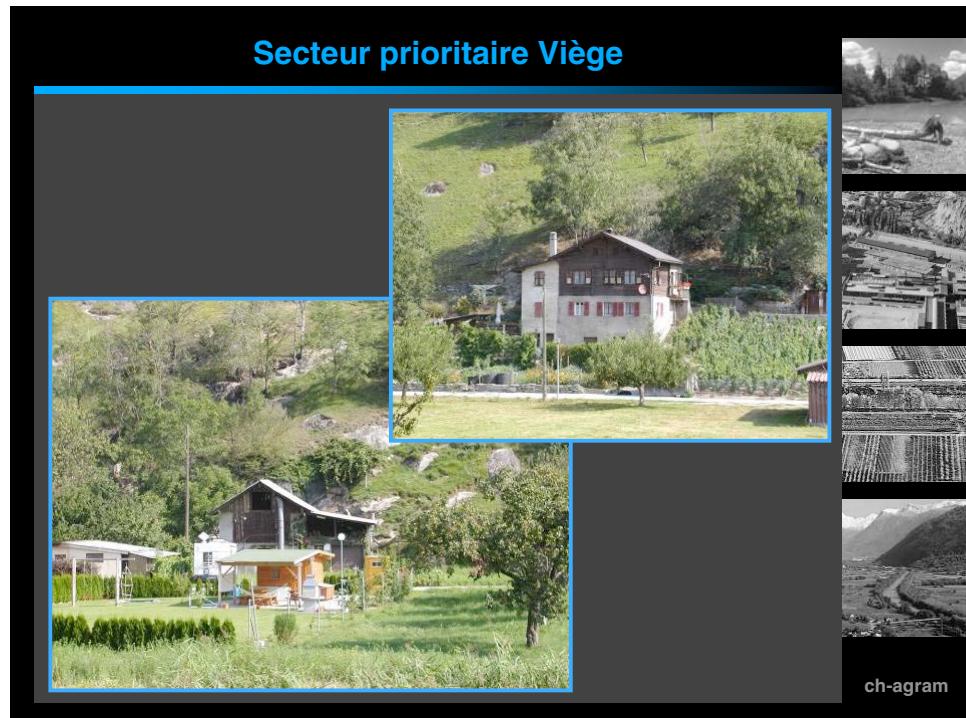

**PROJET GENERAL**

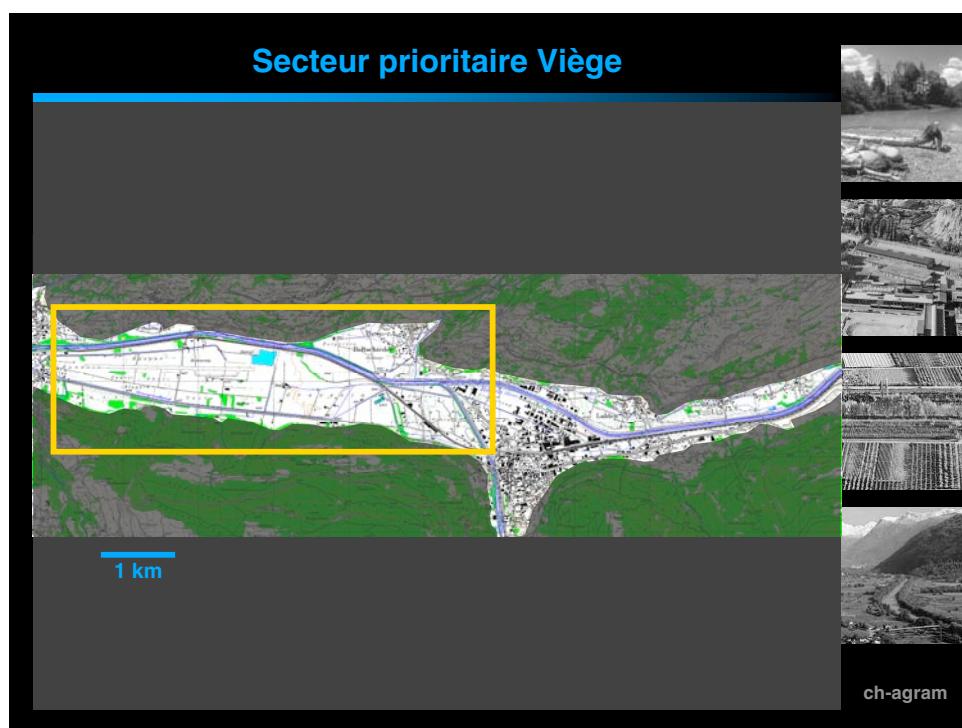

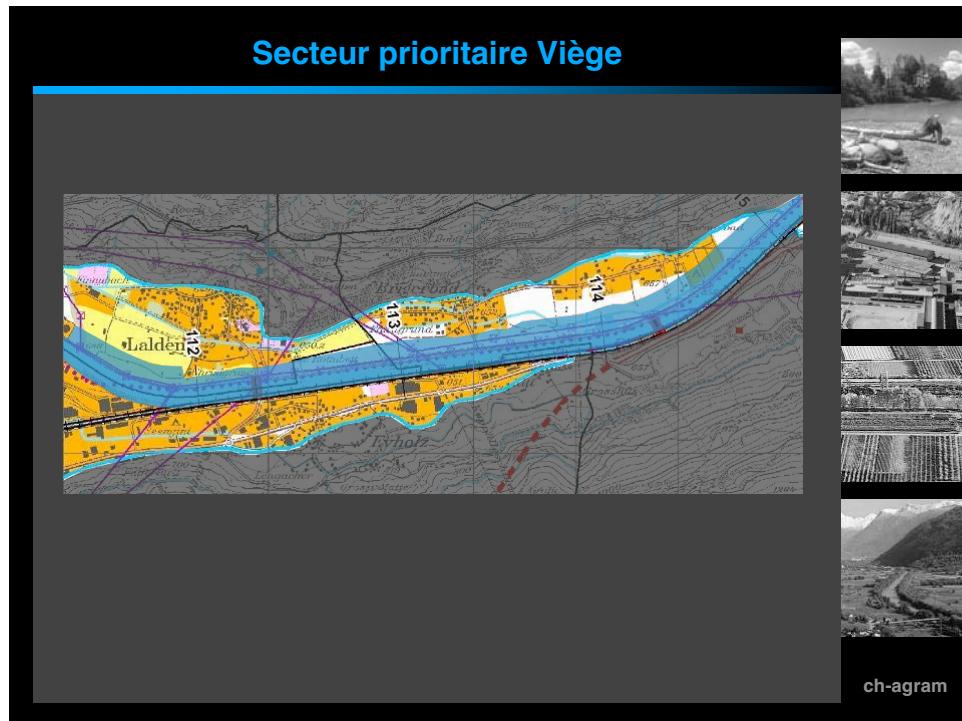

ch-agram

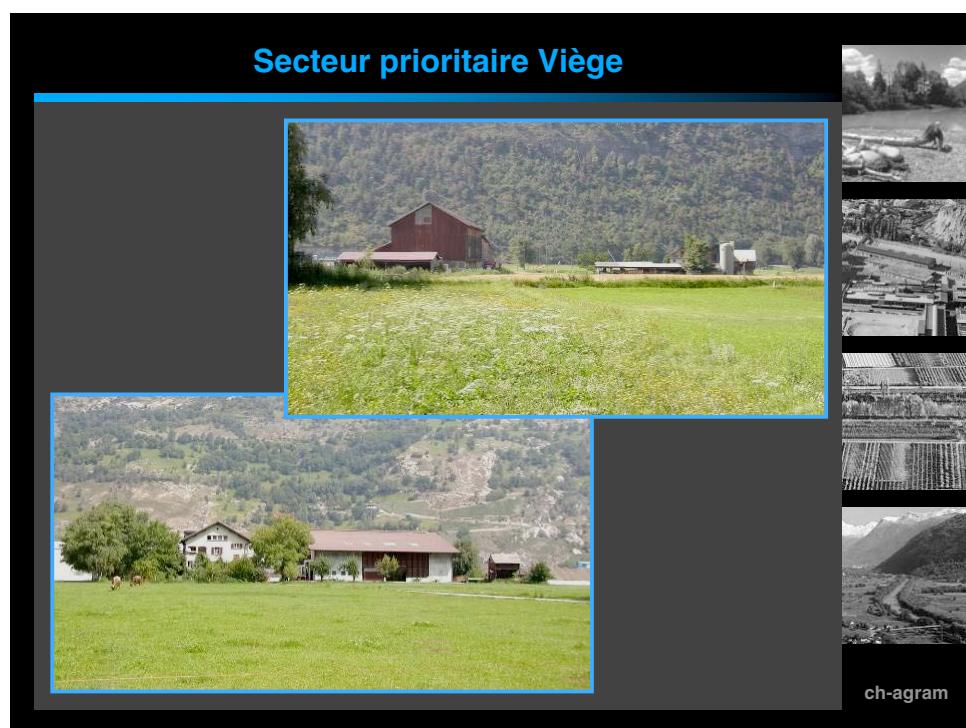

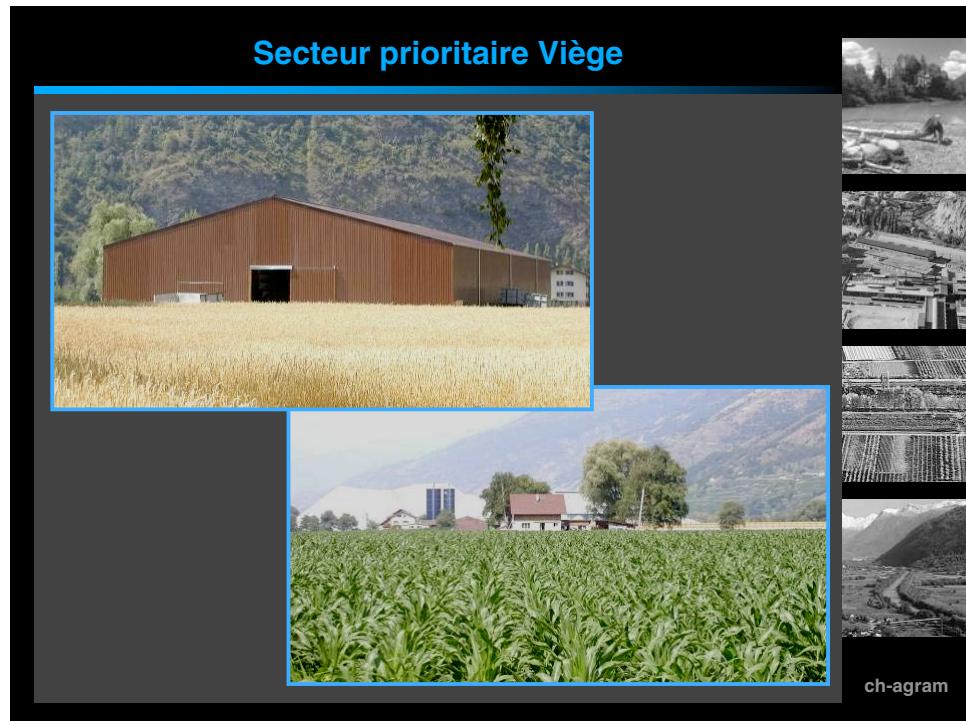

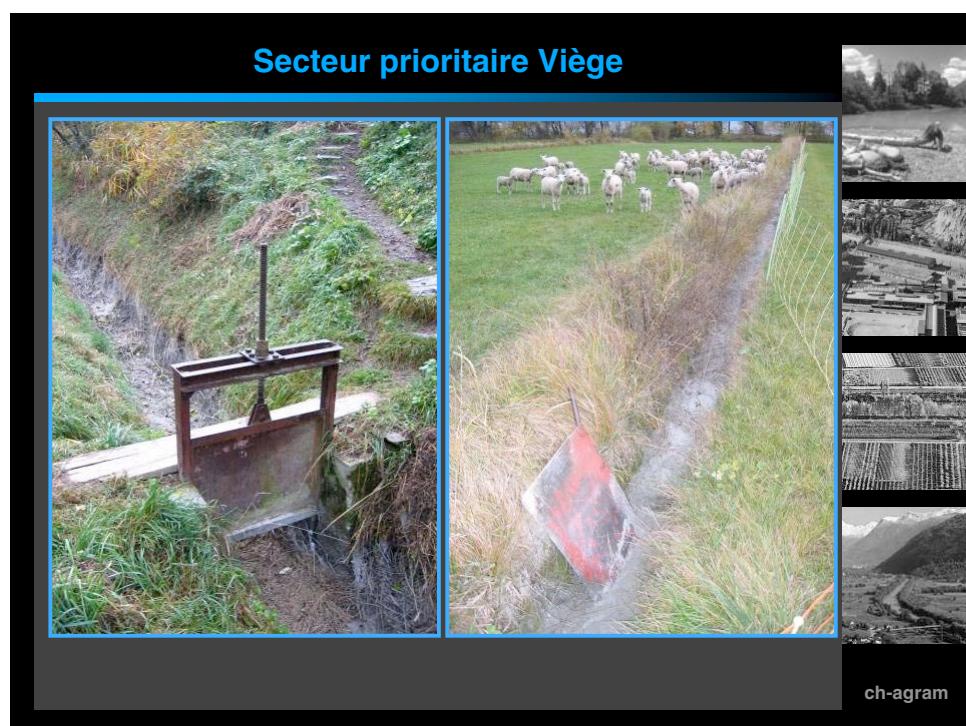

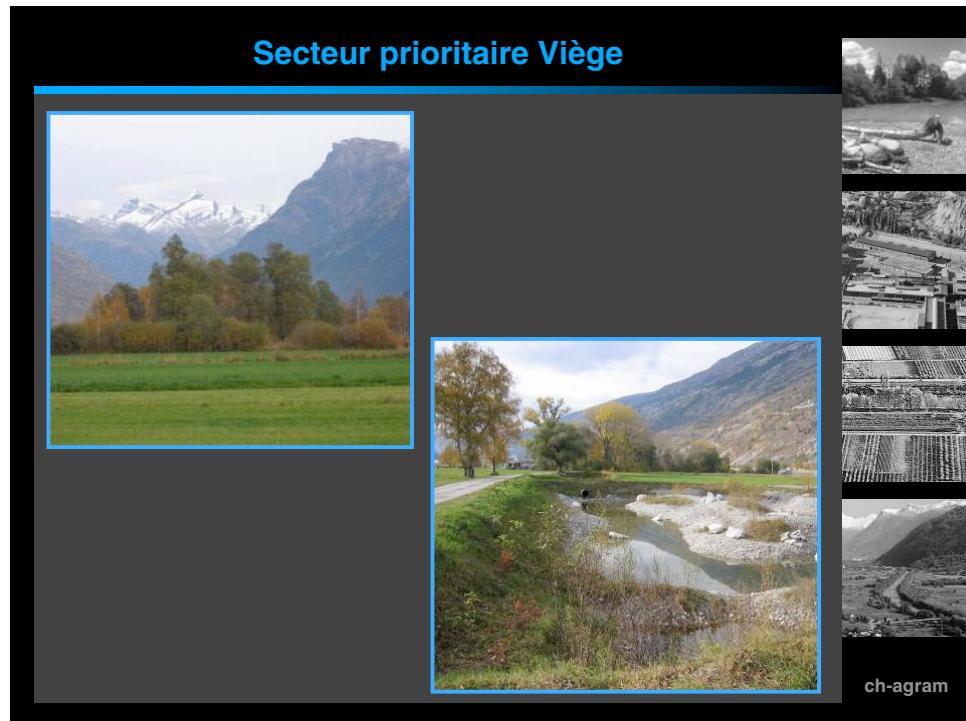

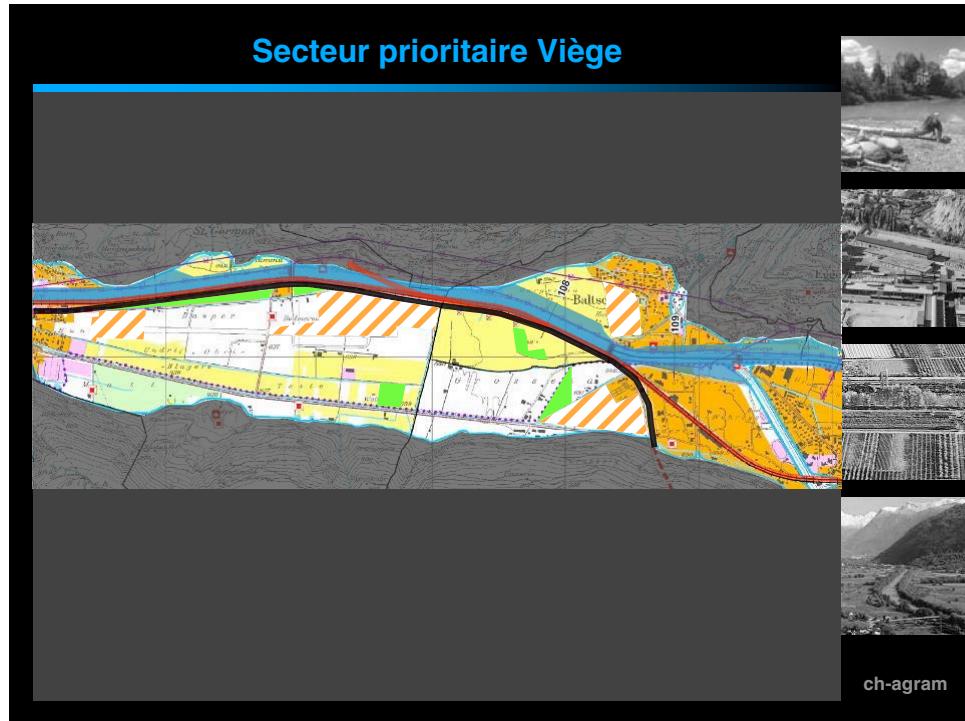

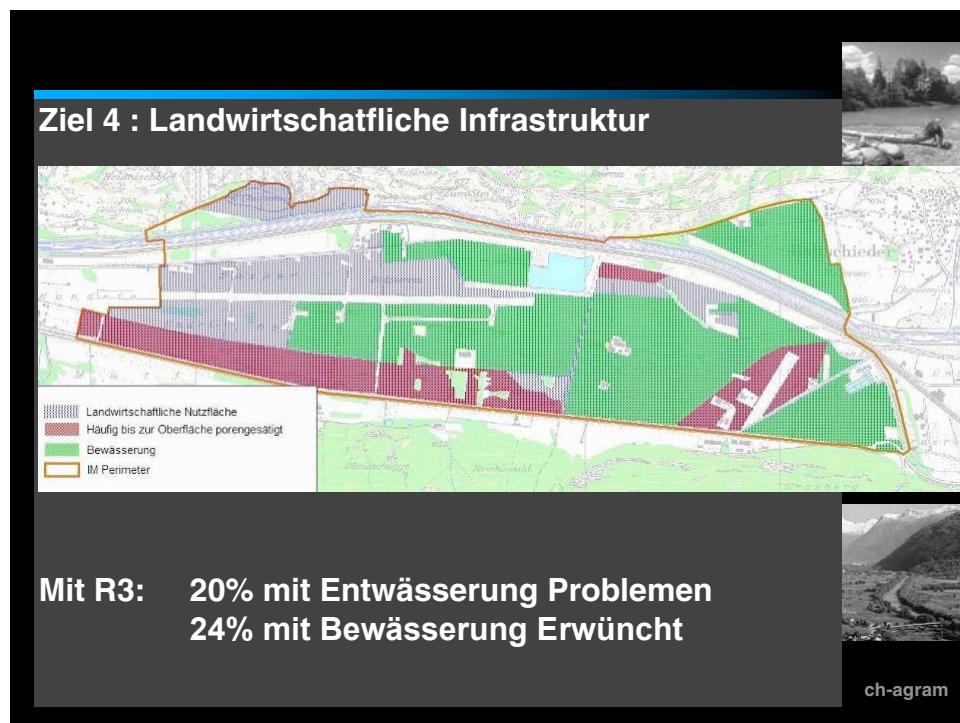

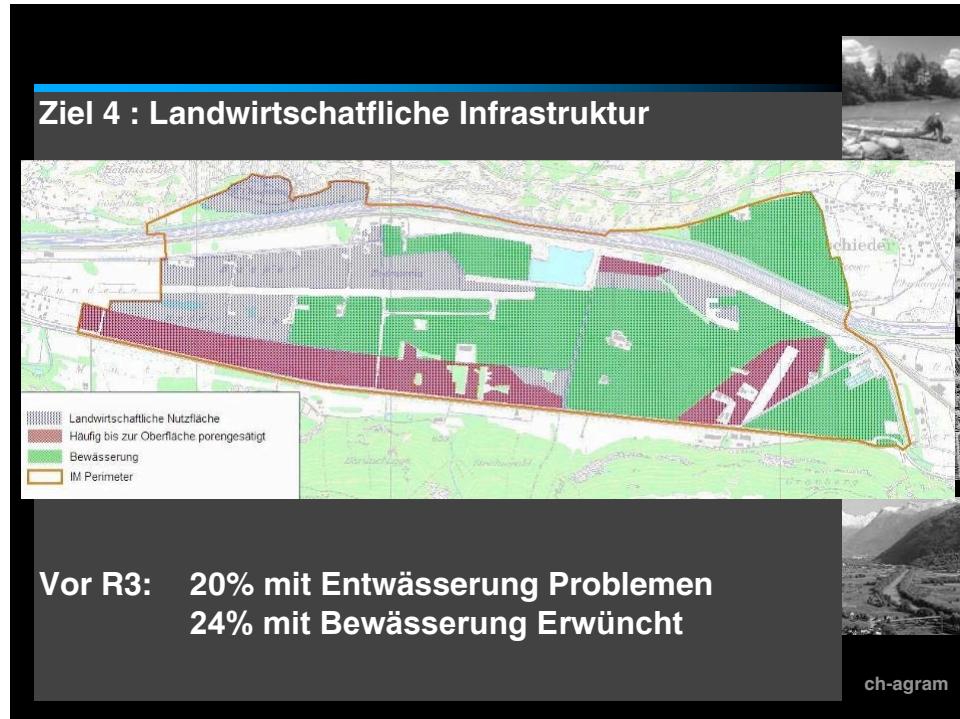

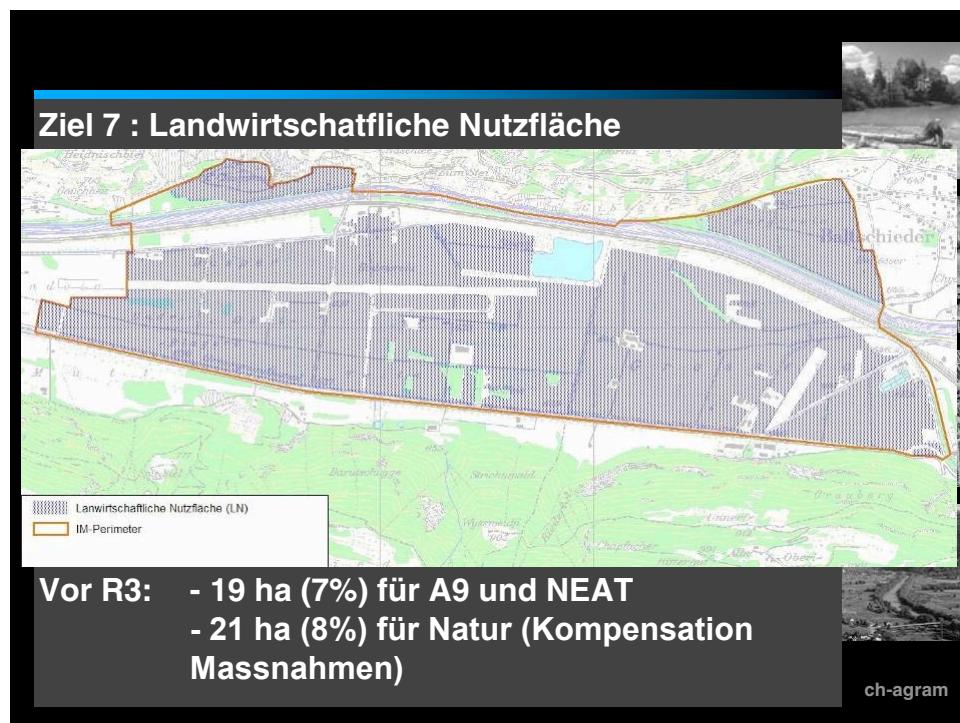

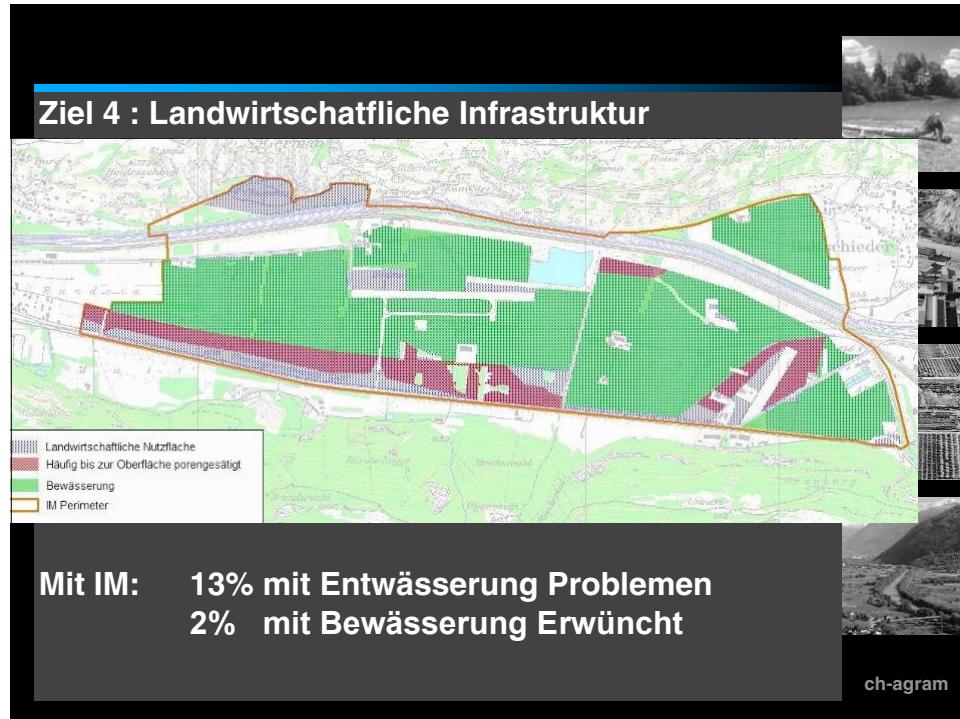

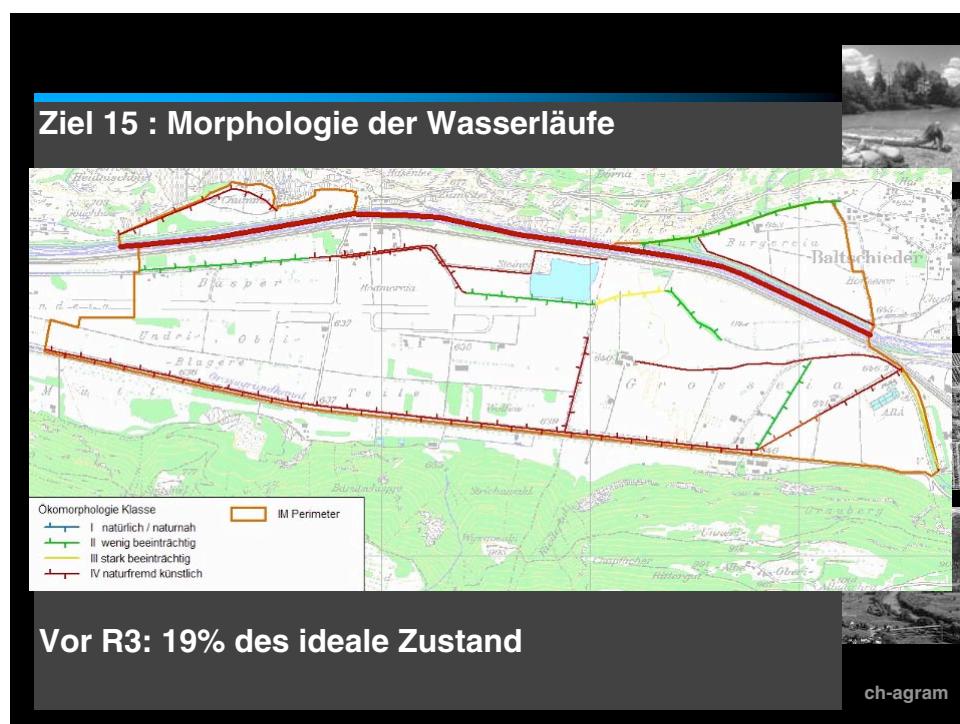

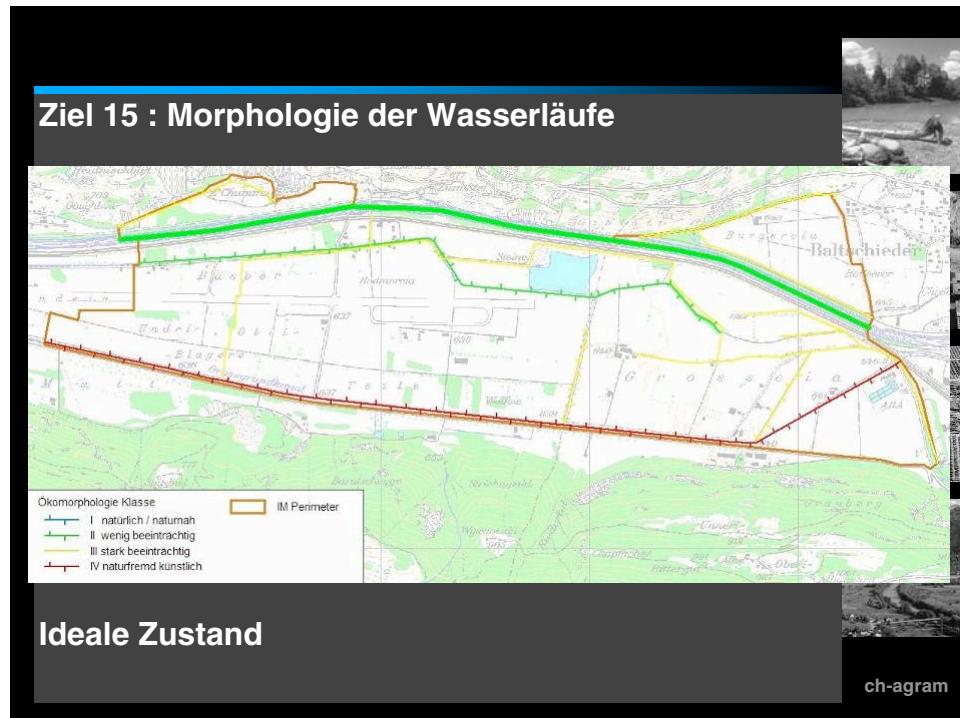

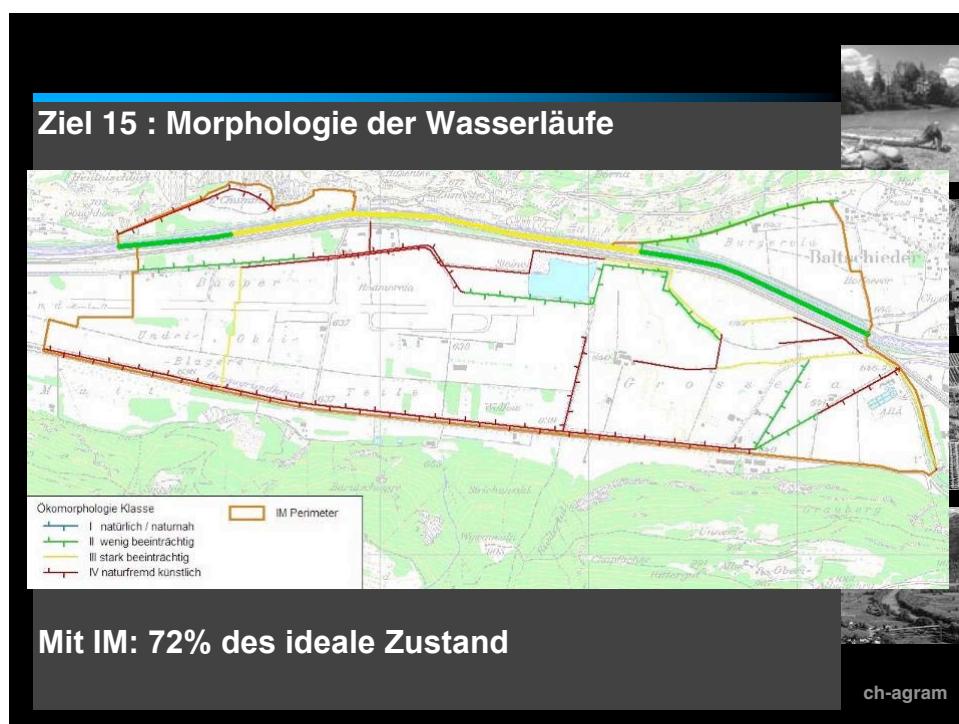

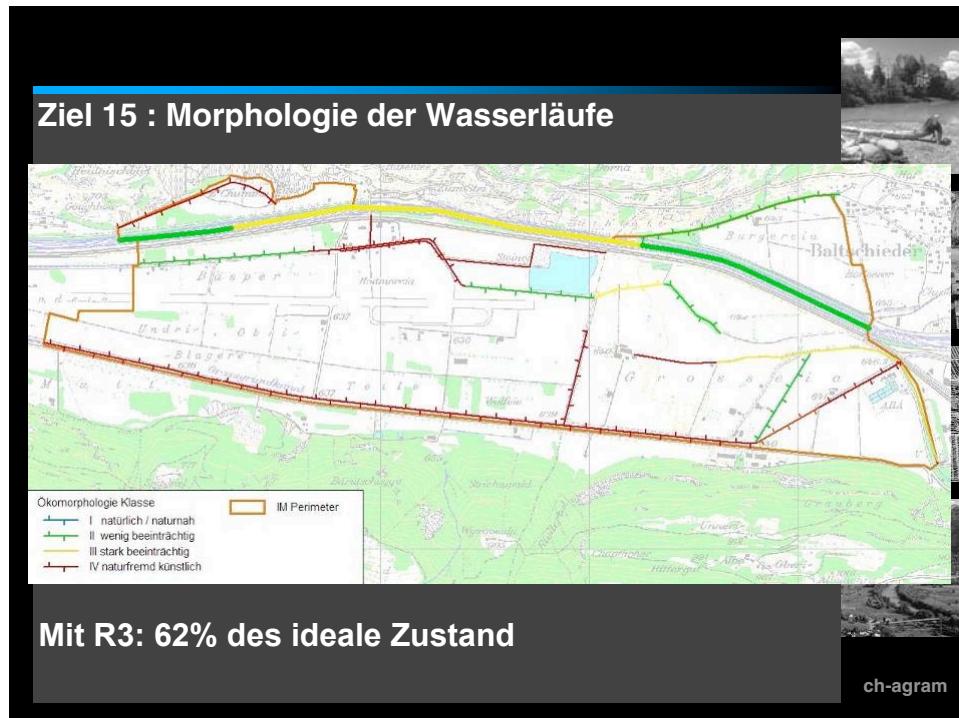

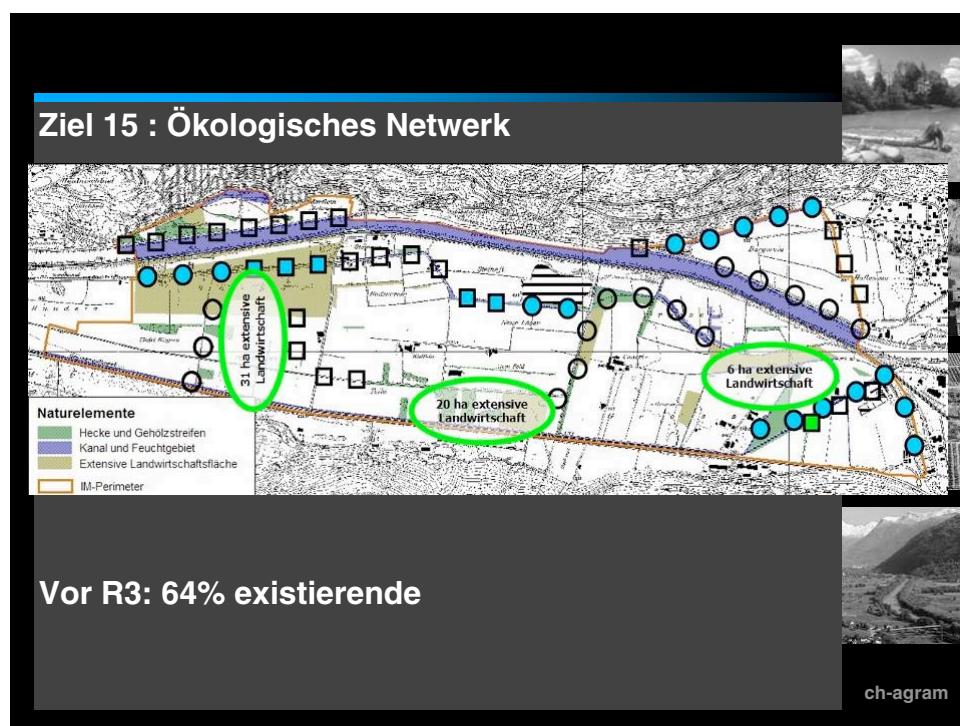

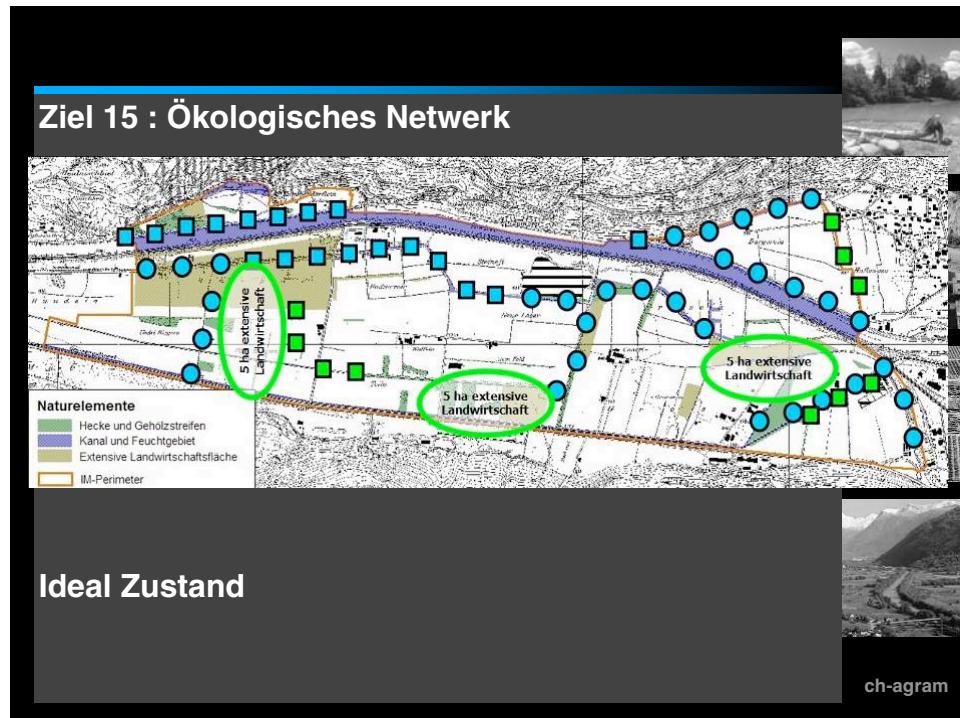

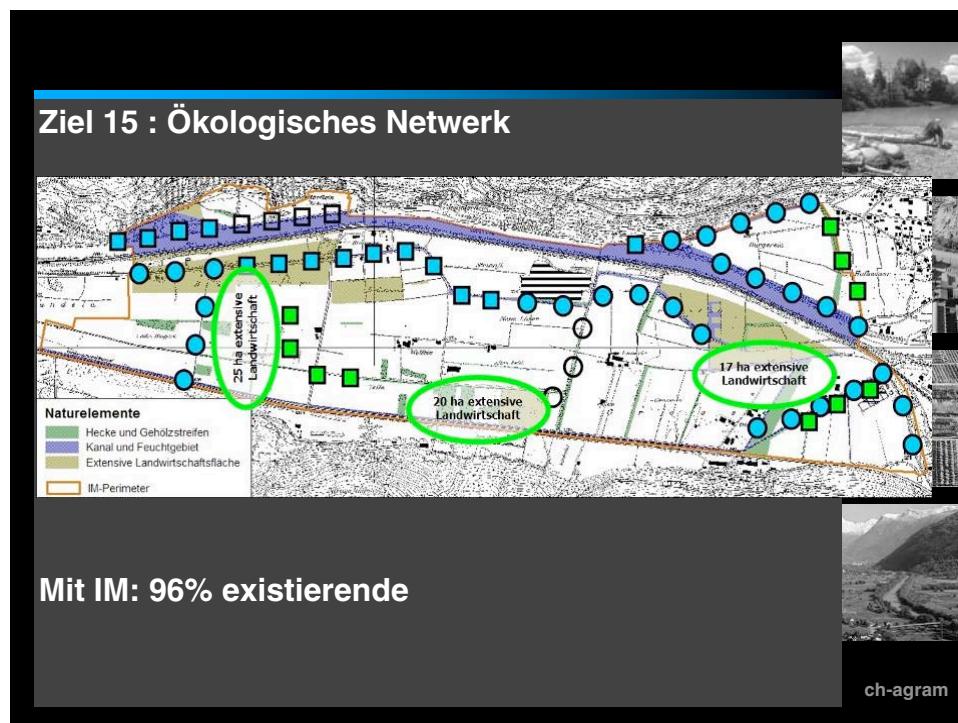

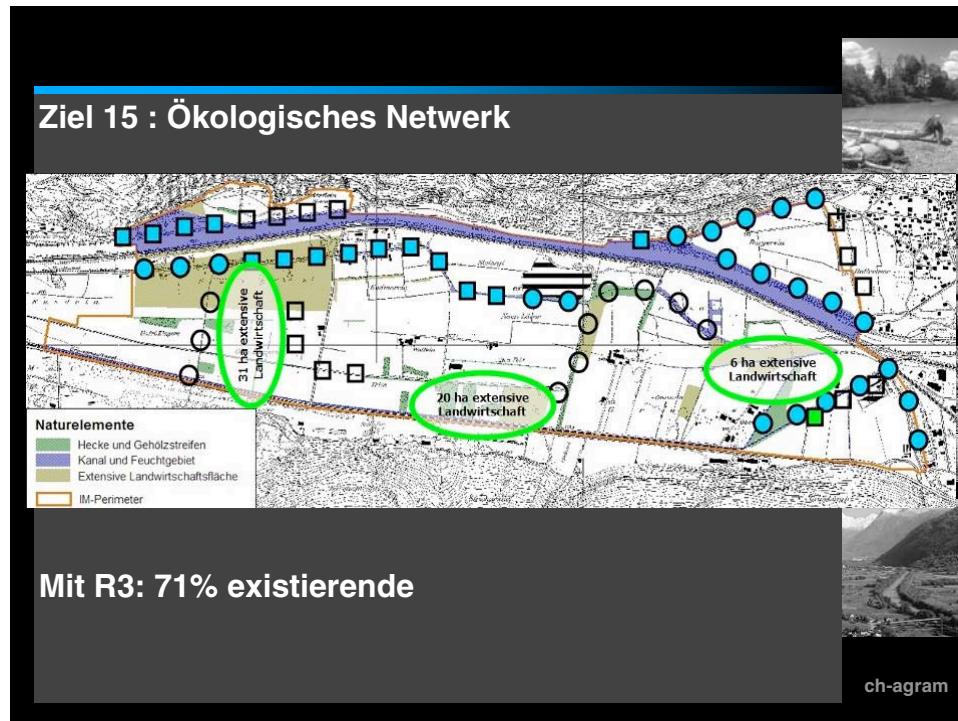

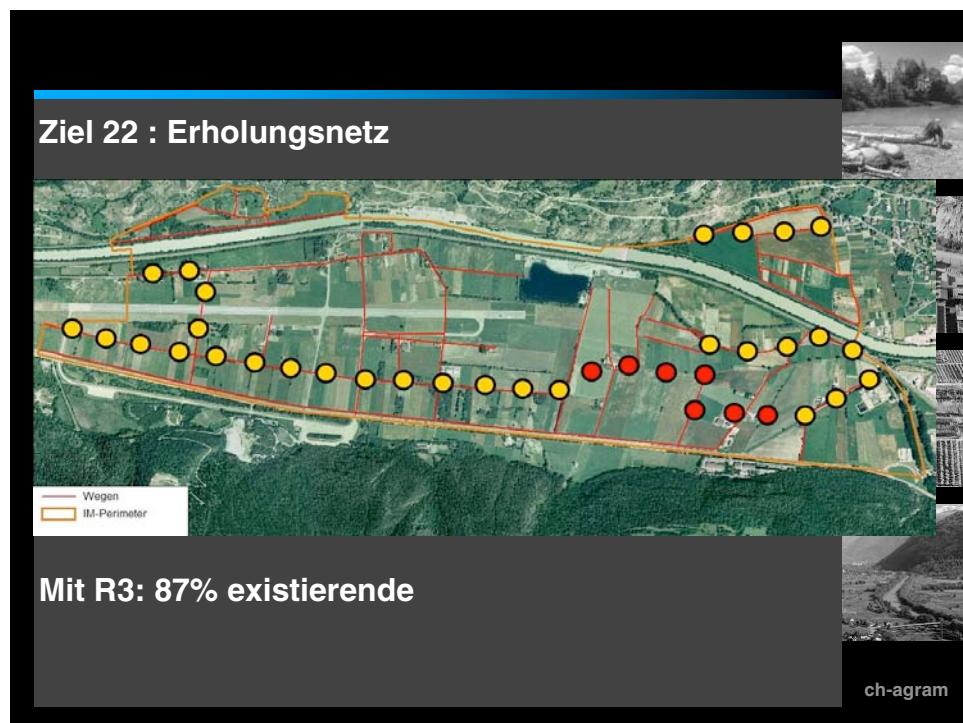

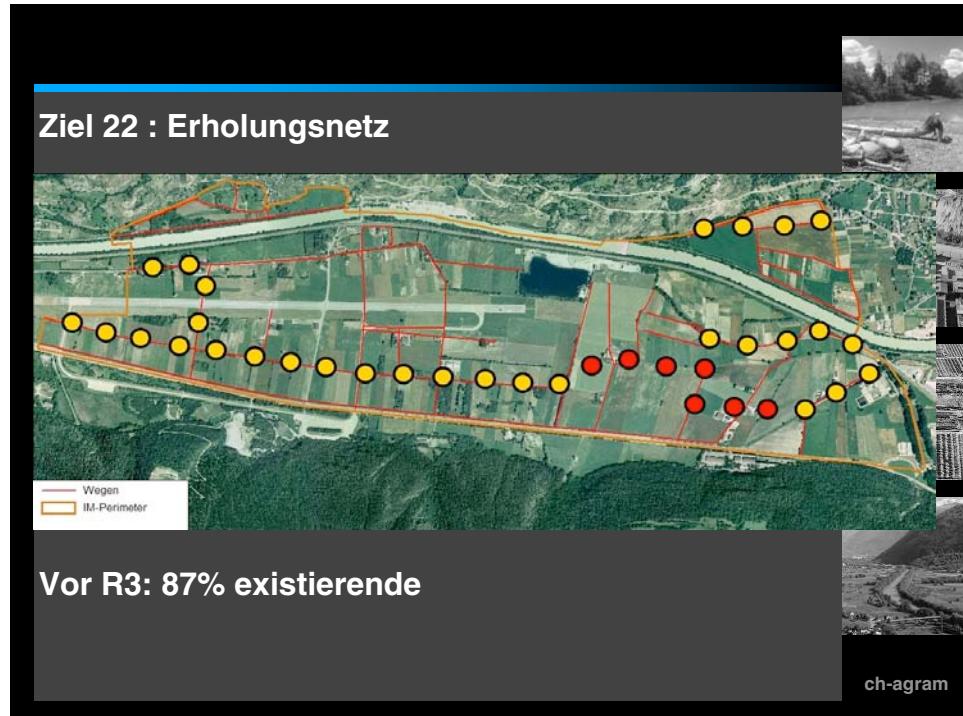

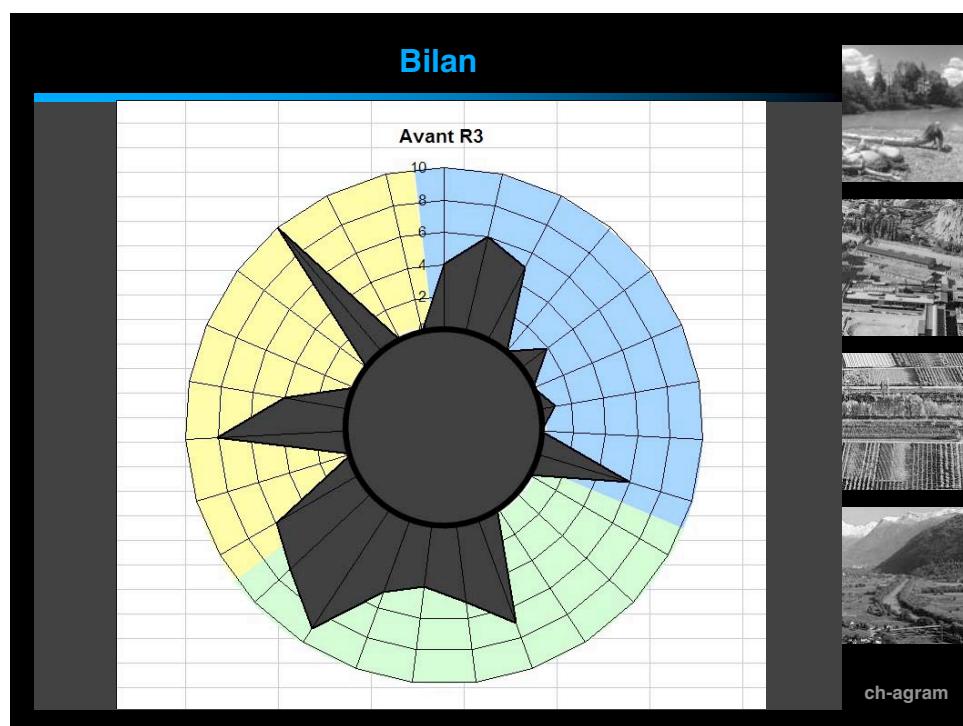

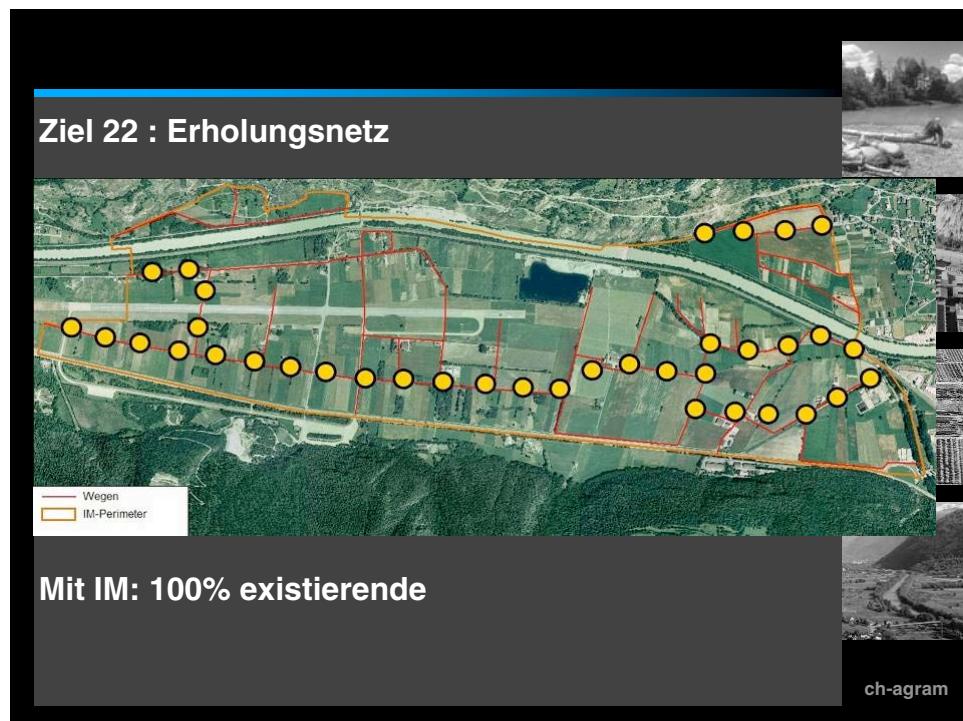

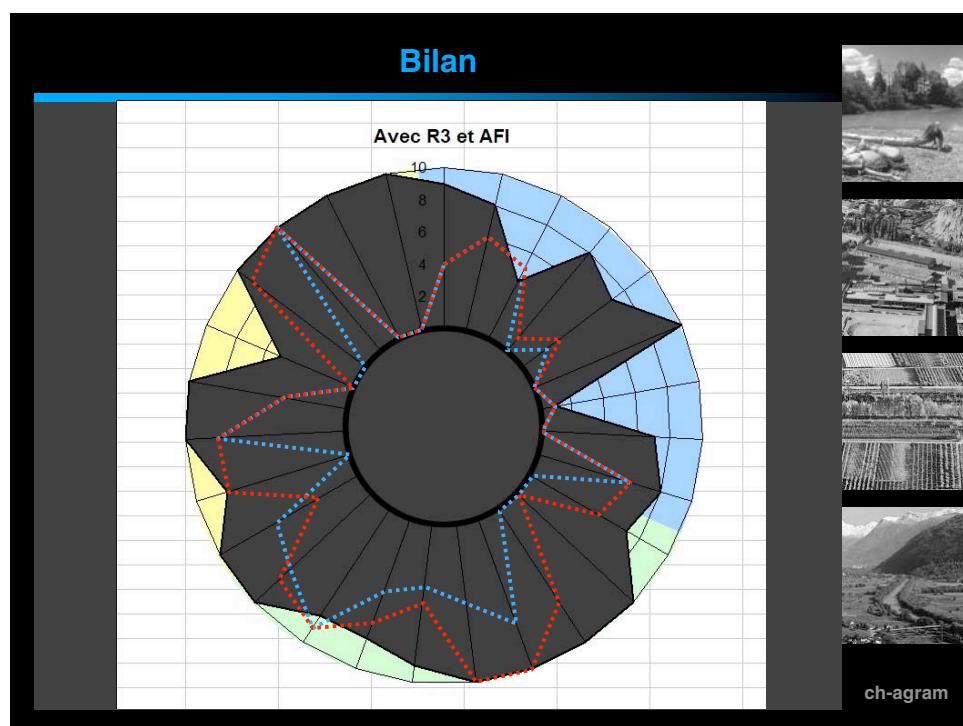

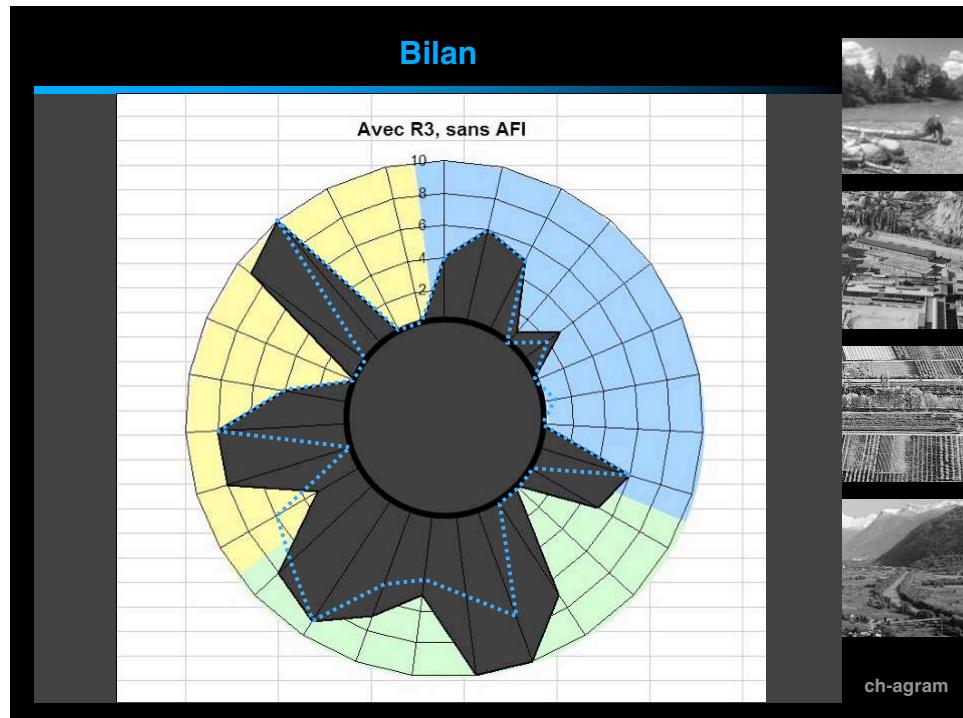

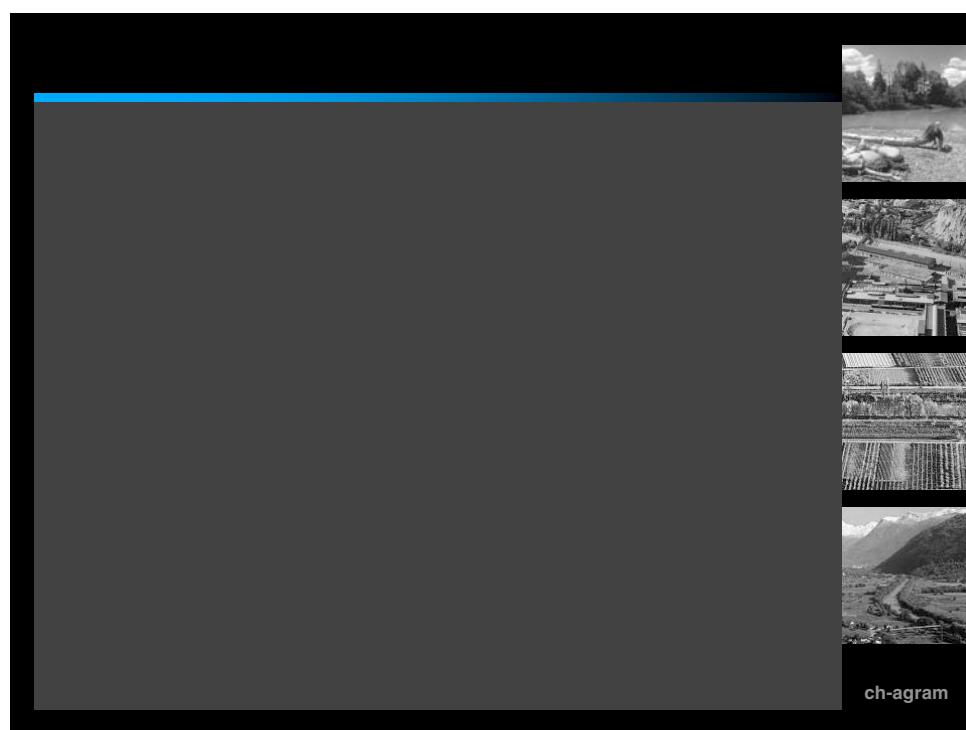

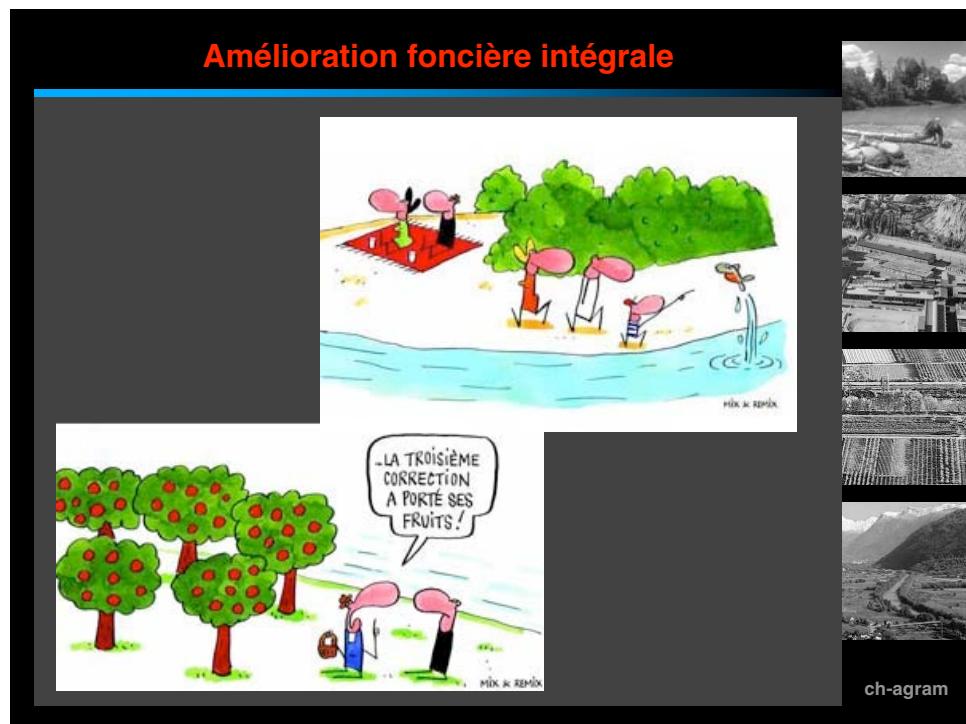

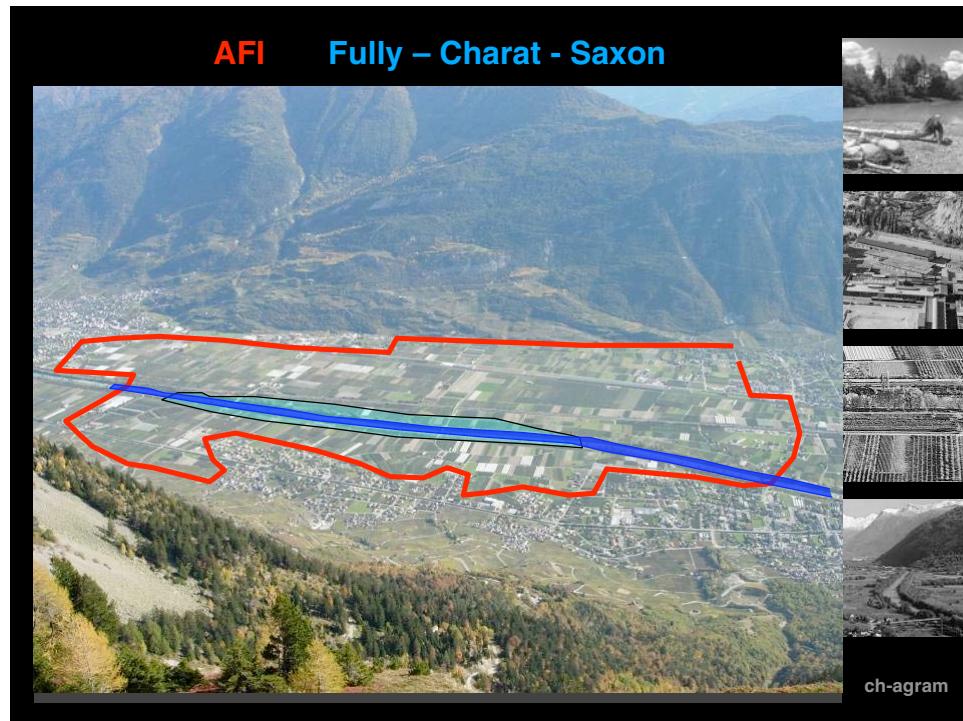

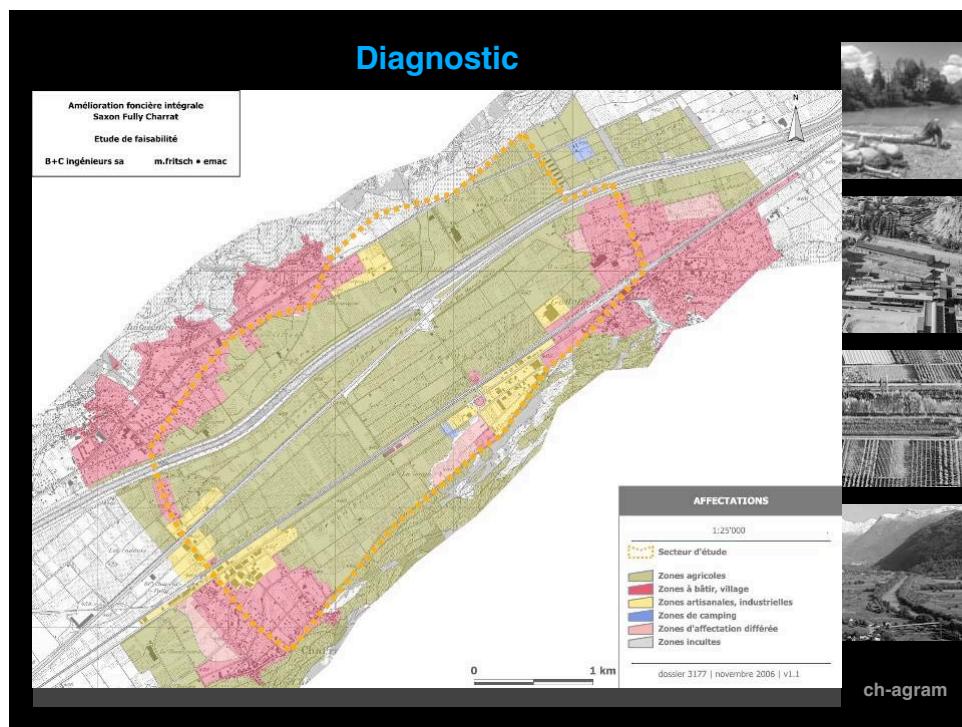

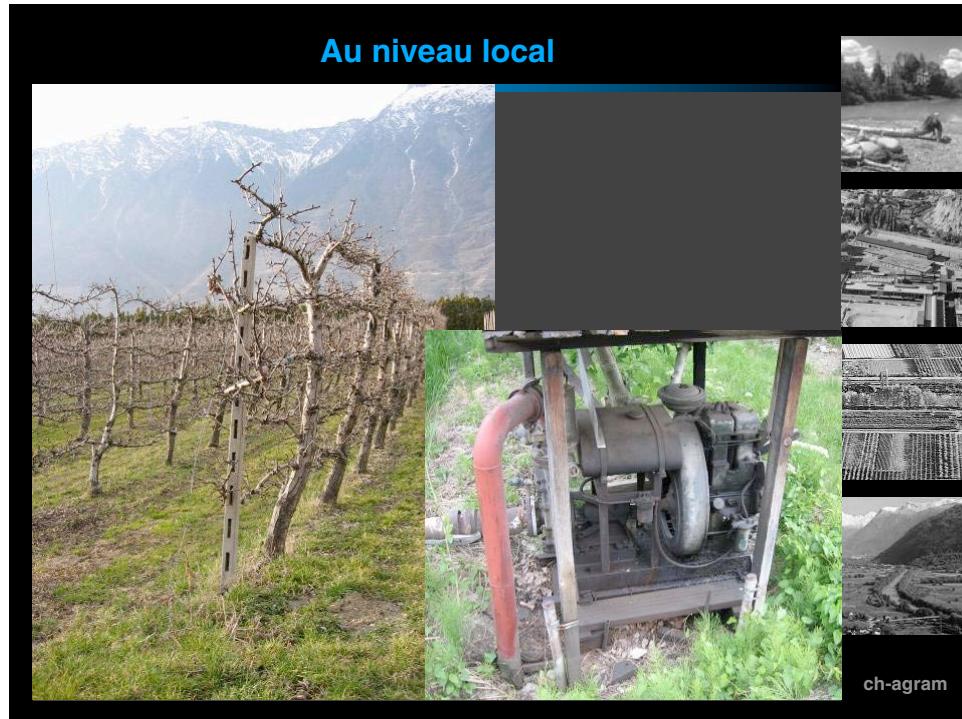

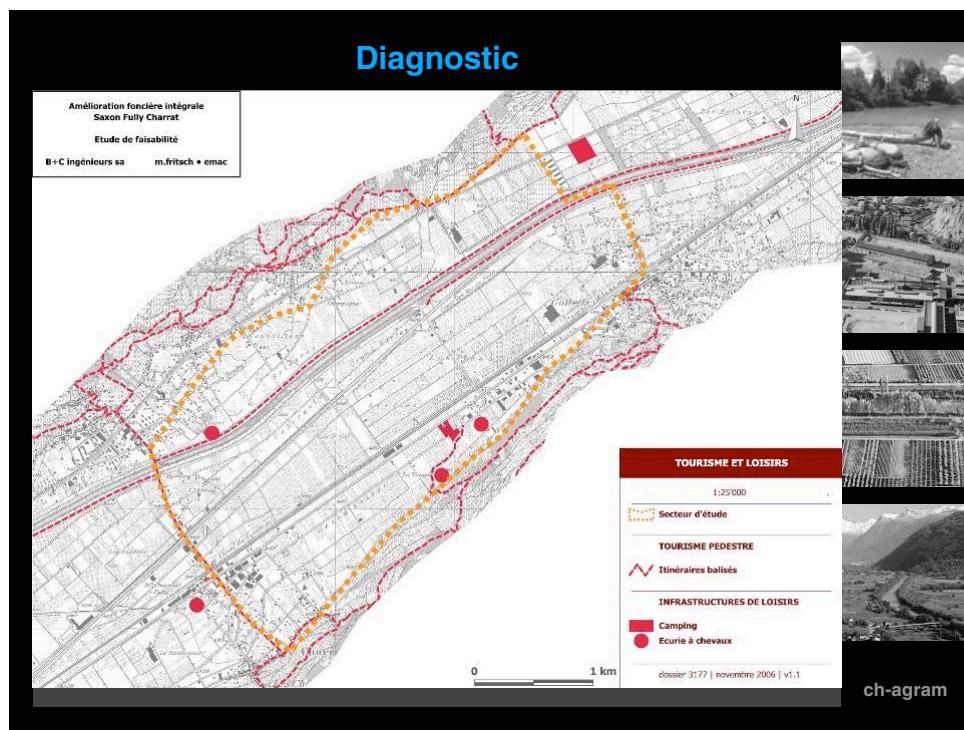

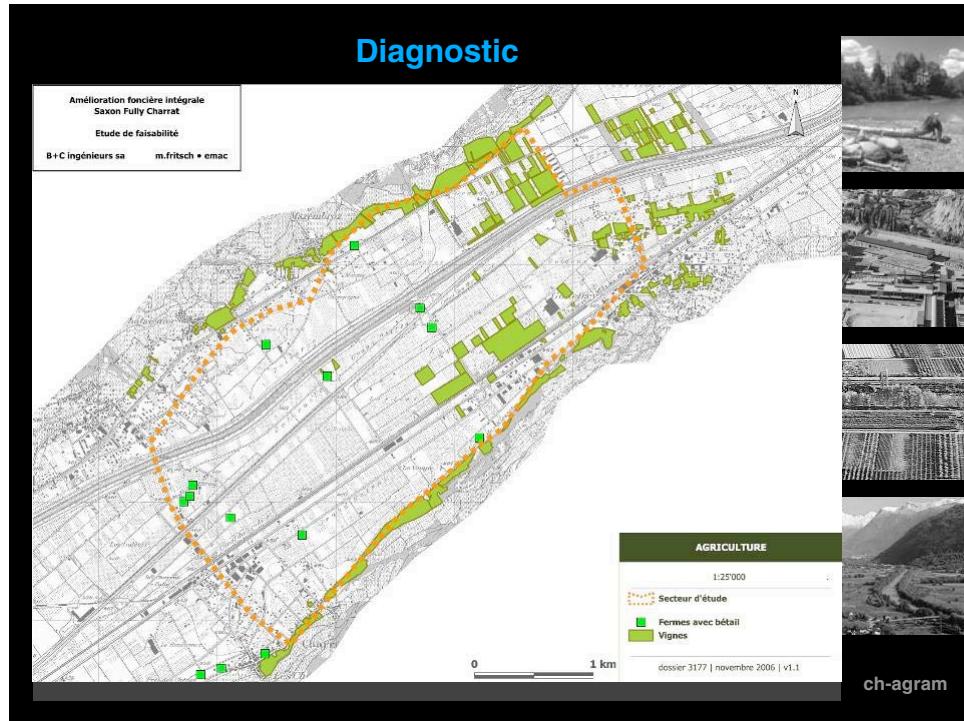

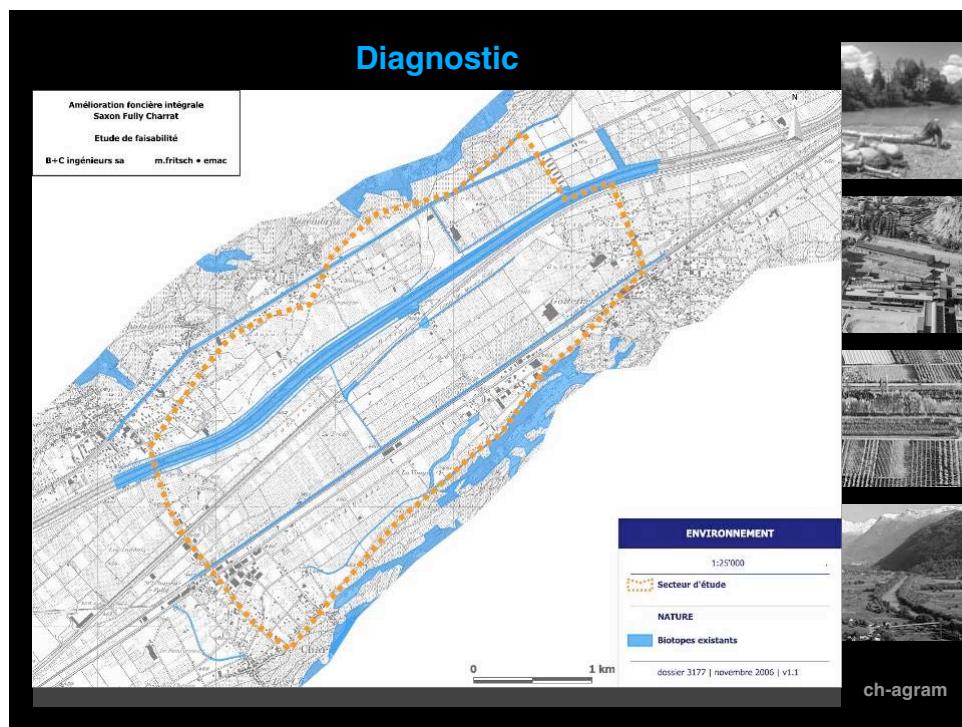

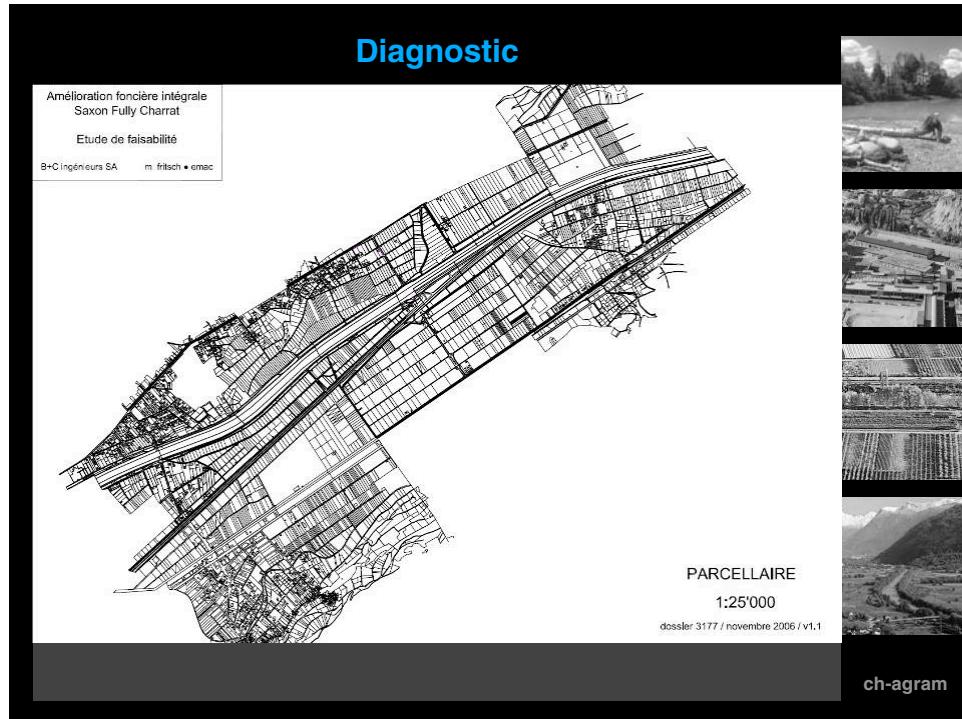

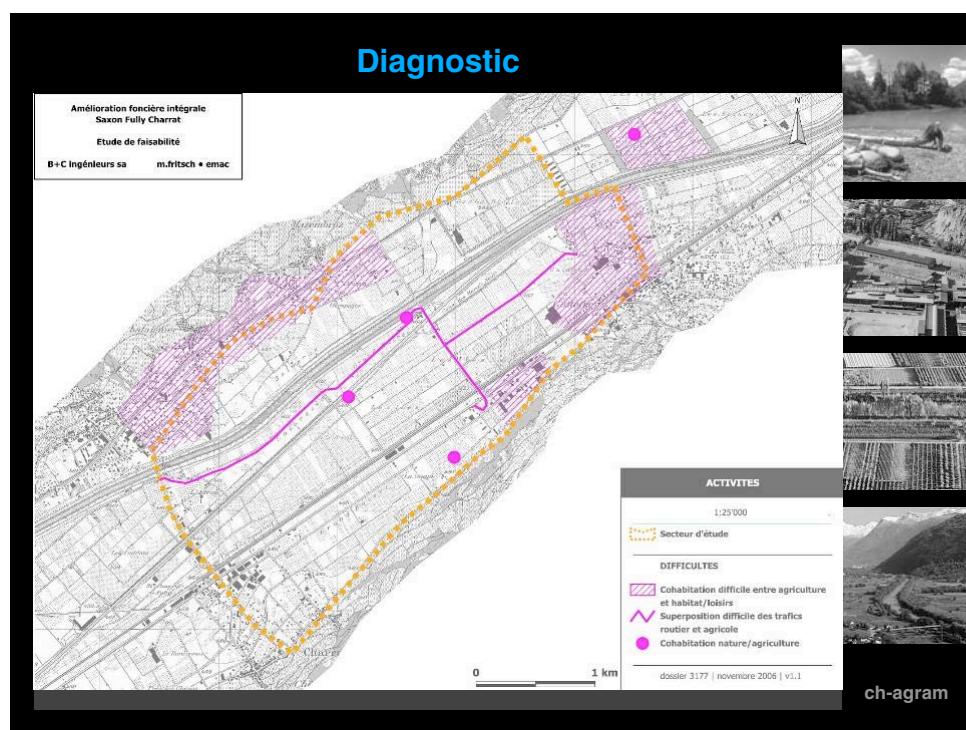

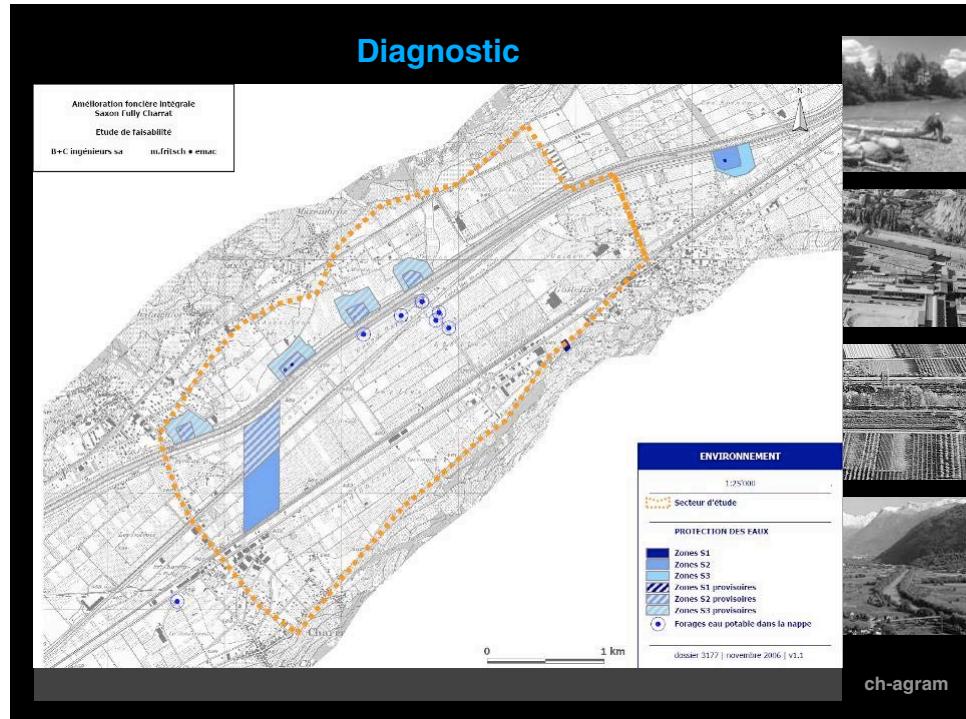

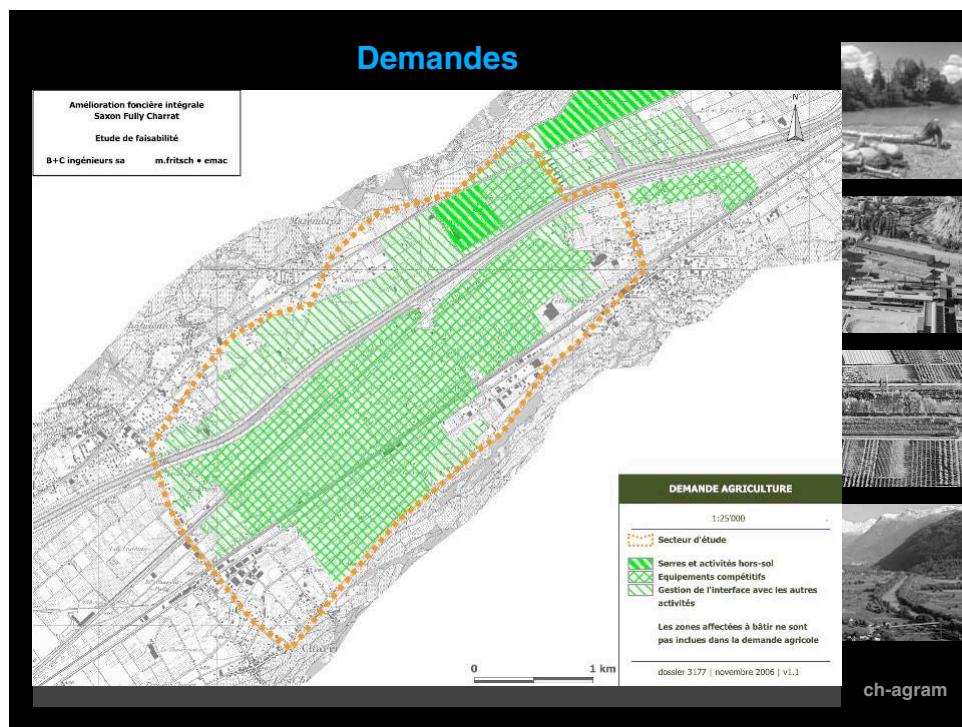

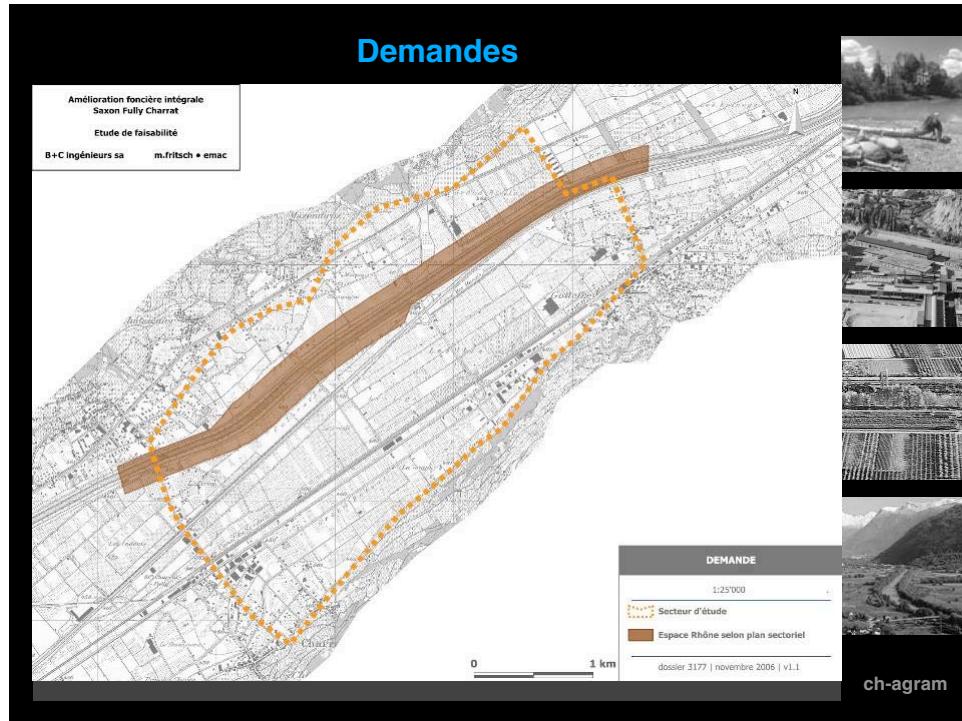

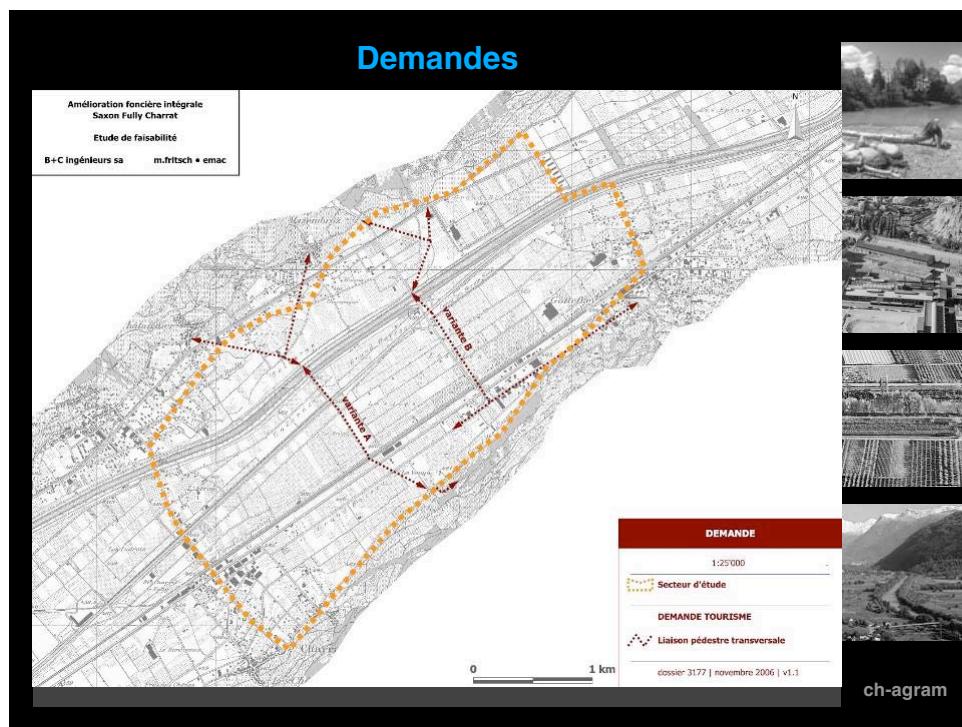

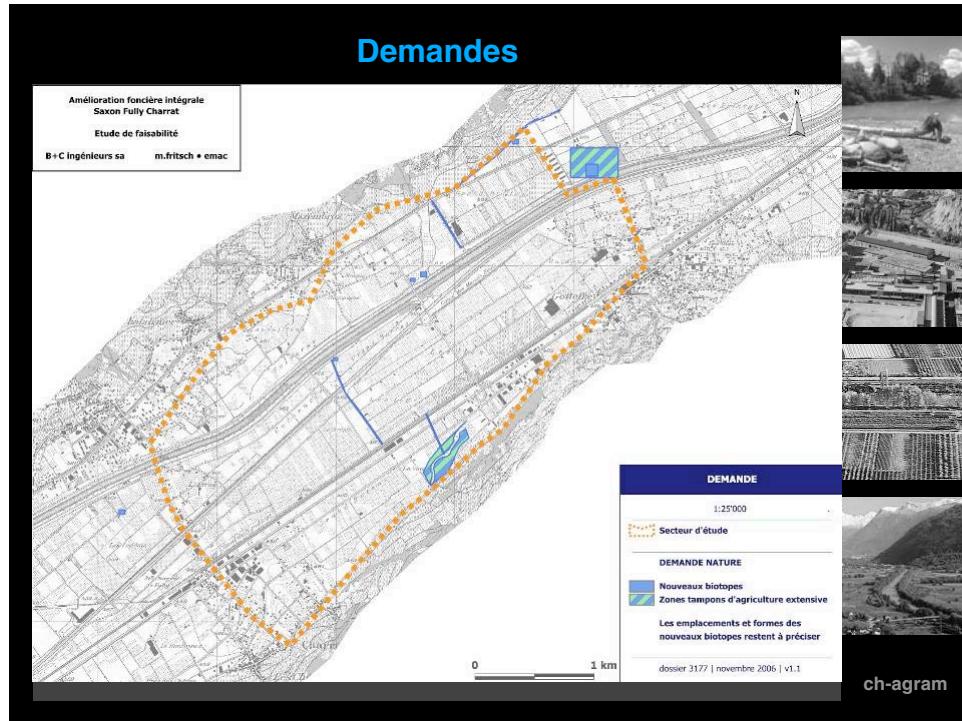

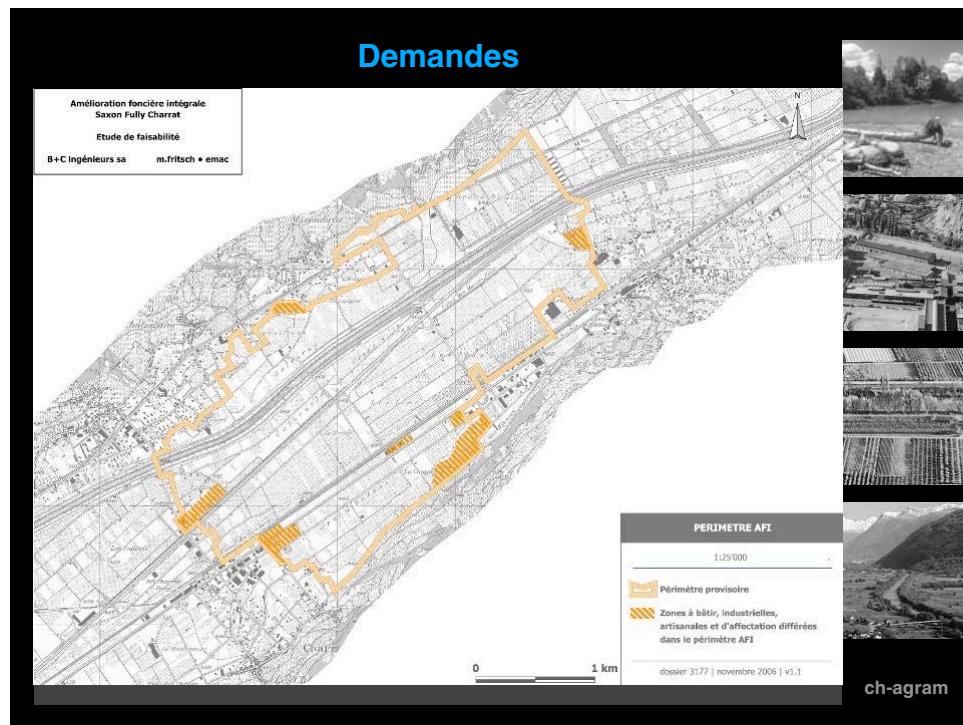

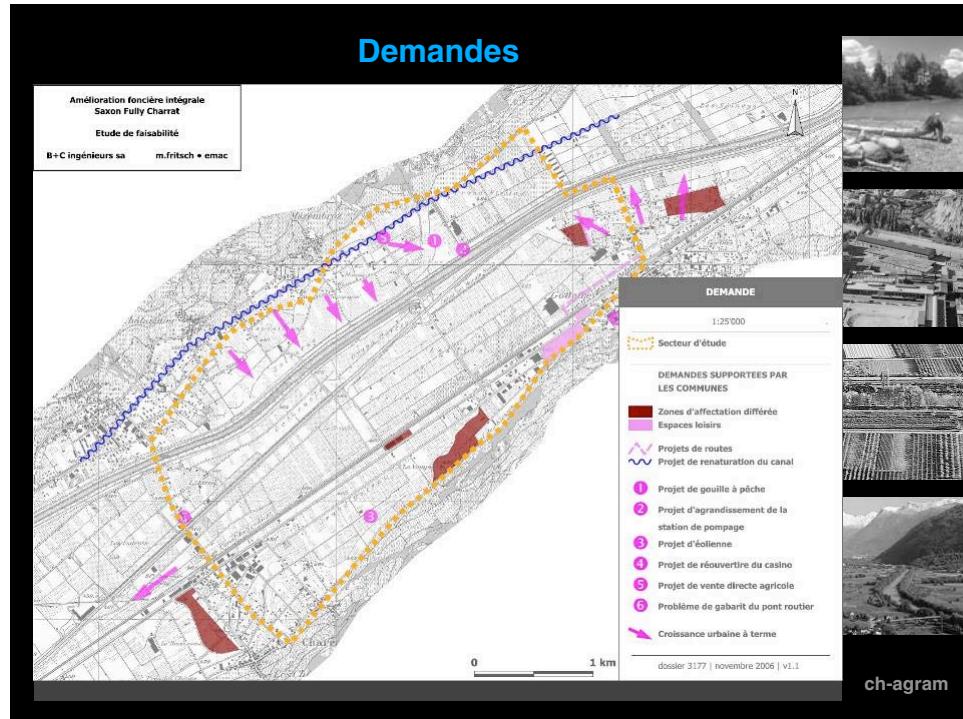

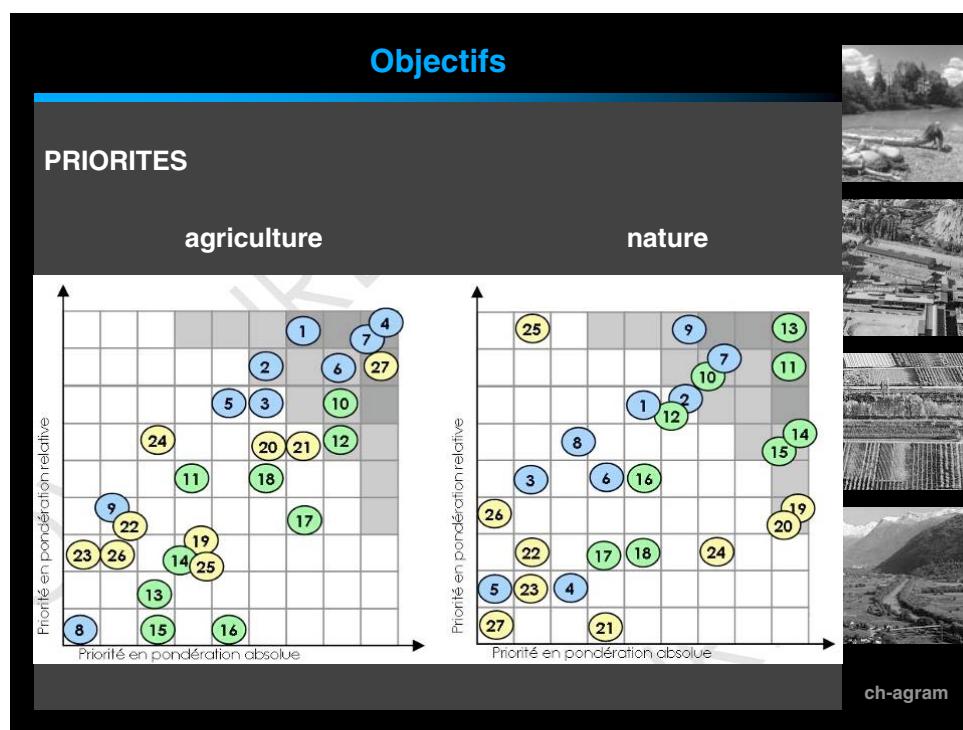

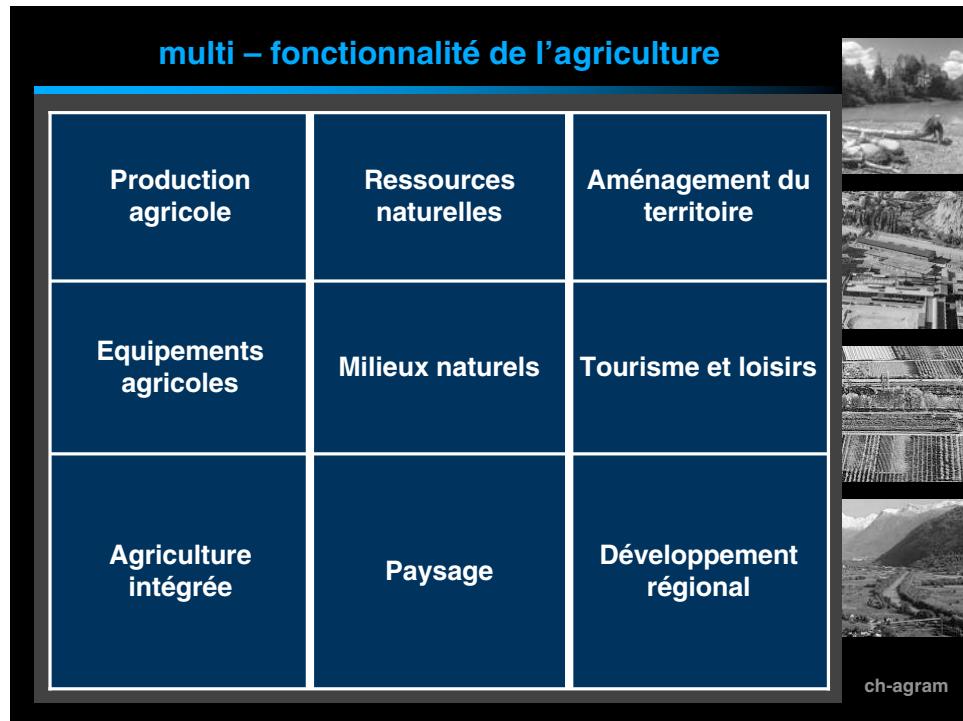

## Objectifs

**OBJECTIFS PRIORITAIRES**

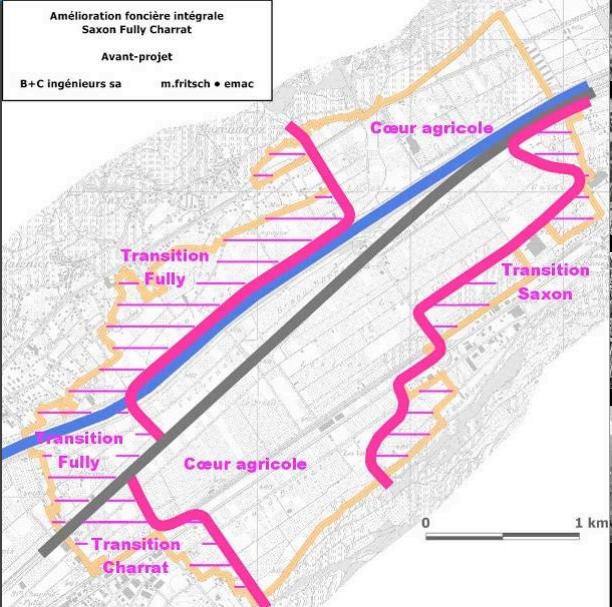

- Irrigation et drainage
- Foncier
- Surface agricole
- Eaux souterraines
- Réseau écologique
- Ecodynamisme
- Dangers naturels

ch-agram

## Concept

**CONCEPT**

Irrigation effectif  
canal efficace de la nappe  
dossier 3077 | septembre 2007 | v1.1

**100%**

ch-agram

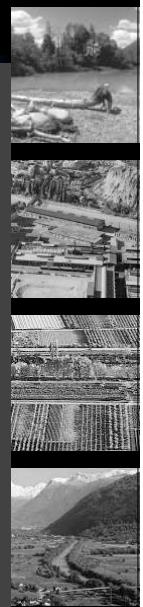

## Conclusions

**PROJET TERRITORIAL INTEGRE**

- ⇒ approche consultative / participative
- ⇒ intégration forte grand projet – développement régional
- ⇒ AFI = l'outil pour réorganiser le foncier
- ⇒ indicateurs pour mesurer la performance et la communiquer
- ⇒ indicateurs pour communiquer le projet
- ⇒ analyse d'utilité pour finaliser le projet, montrer la plus-value par groupe d'intérêts et pour proposer une répartition des coûts

ch-agram

## Communication !

MIK & REMIK
